Industrial Visit Report

Industry Visited: Globus Pharma Butibori Nagpur

Date: 08 April 2023, Thursday

Purpose of Visit: The purpose of this visit was to provide students with an opportunity to gain practical knowledge and insights into the pharmaceutical industry by observing the manufacturing process, learning about quality control measures, and interacting with industry professionals.

Highlights of the Visit: The industrial visit to Globus Pharma Butibori Nagpur was organized on 8th April 2023, Thursday. The initiative was taken by Dr. Jagdish Baheti Principal Kamla Nehru college of Pharmacy Butibori, Nagpur, Dr. Nitin Padole, Dr. Pankaj Dhapake and Mr. Sagar Thakare. Total 40 students from B.Pharm Third year were present for the industrial visit. The journey started at the 11:00 p.m. from butibori and reach at the destination at 12:30 p.m.

1. Presentation by Industry Experts: The visit commenced with a presentation by senior executives from the company, A brief narration about growth development of industry was given by Mr. Pravin Bisen, Mr Utkarsh sir who provided an overview of the company's history, mission, and values, as well as an introduction to the pharmaceutical industry and its regulatory frameworks, including the Food and Drug Administration (FDA). Further student were divided in three groups.

2. Manufacturing Process: The students then proceeded to the manufacturing plant, where they observed the various stages of the pharmaceutical manufacturing process, from raw material preparation to finished product packaging and quality control testing, including the use of advanced technologies such as automation, They also learned about the company's strict adherence to Good Manufacturing Practices (GMPs) and its commitment to ensuring the safety, efficacy, and quality of its products.

3. Quality Control Measures: The students then visited the quality control laboratory, where they learned about the various tests and procedures used to ensure the quality and safety of the company's products, including chemical, physical, and microbiological testing, as well as the use of advanced analytical techniques such as chromatography, spectroscopy, and microscopy. They also learned about the company's rigorous quality assurance and quality control systems.
